**Your Comments or Concerns**

Stop rubber-stamping all pollution permits and start keeping pollutants out of our air and water. Prioritize the needs of our communities and individuals over corporations who want permission to pollute our natural resources. Take economic development out of your mission statement - leave that to the municipalities where it belongs! Show a company's entire history of noncompliance on your website instead of just a small slice.

**Your Proposed Solution**

Stop serving industry and start serving the land, air, water and individuals; which is what you were created to do in the first place!
